🔹 **Insight 1 – Revenue concentration**

Electronics (31%) and Fashion (30%) together generate over 60% of total revenue, indicating strong reliance on two core categories.

🎯 Business value: risk & focus

🔹 **Insight 2 – Platform balance**

Revenue is evenly distributed across platforms, suggesting low channel dependency and reduced platform risk.

🎯 Business value: channel strategy

🔹 **Insight 3 – Seasonality**

Monthly revenue remains relatively stable throughout the year, with no strong seasonal spikes, indicating consistent demand.

🎯 Business value: forecasting stability

🔹 **Insight 4 – Ratings vs Reviews**

Higher review volume does not necessarily translate to higher average ratings, suggesting that popularity does not always reflect customer satisfaction.

🎯 Business value: CX improvement potential

🔹 **Insight 5 – Brand performance**

Brand-level sales volumes are relatively balanced, indicating no single brand dominance in unit sales.

🎯 Business value: supplier diversification
